## AMENDMENT UNDER 37 CFR 1.312

## REMARKS

This amendment is made to provide formal drawings for the case. As originally filed, the drawings were informal. In Figs. 5 and 9 as originally filed the font size is too small and the drawings crowded, so in order to facilitate a better and faster understanding of the drawings, Figs. 5 and 9a were divided and placed on separate sheets with the suffix "5a" and "9aa" added to the second sheet of the respective drawings. Likewise, corresponding changes are made to the specification to incorporate the additional suffix for these drawings.

In addition, other minor changes are made to the drawings. Here, in Figs. 6a and 6b, "button" boxes are added around the text "ADD YARD", "DELETE YARD", "ADD MELTER" and "DELETE MELTER" to indicate controllable regions around the corresponding text, as indicated at Pg. 33 lines 3 - 7 of the specification as originally filed. Likewise, in Figs. 6c and 6d, button boxes are added around the text "SAVE YARD", "SAVE & ADD ANOTHER" and "CANCEL". Also, blank fields where information may be added are provided in

Figs. 6c and 6d, as indicated at Pg. 33 lines 5 - 7 of the specification as originally filed. Likewise, button boxes and blank fields are similarly added in Fig. 7d, as supported at Pg. 34 lines 7 - 14 of the specification as originally filed.

This amendment makes no changes on the merits of the application, adds no new matter and does not require an additional search or any substantial work, but merely submits formal drawings and minor corrections thereto for the Examiner's approval. Favorable action is respectfully requested.
